TO WHOM IT MAY CONCERN

We would like to thank the company Hot Zone Solutions Group for the provision of the Covid test (BNCP-402 COVID-19 IgG/IgM Rapid Standard Kit).

We have received the test on the 28th March 2020 and we conducted the test on personal and voluntary basis to some surgeons of the Emergency Surgery Department (our hospital is a Covid-19 referral hospital).

Testing with IgG/IgM Covid-19 Rapid Test confirmed the easy to use characteristics of the system and we are very satisfied with the results.

Best regards

Former Director of Emergency Surgery of Policlinico Gemelli
